

Symposium

“Some pigs are more equal than other pigs”

European Pig Producers
EPP is a society of advanced pig farmers from several countries in Europe.

Friday May 28, 2010
Hotel Sofitel Cocagne
Vestdijk 47 Eindhoven

What's makes the Dutch pig farmers so special? Why are we looked at with so much interest from all over the world? Is it because of the large harbour of Rotterdam? Has it got to do with our trading spirit or do we have such excellent entrepreneurs? What distinguishes our pig farmers from his colleagues in other countries? We hope to find answers to these questions and perhaps other questions during the symposium, which is not exclusive for EPP members; Everyone who is interested in the theme, can join us.
